Historic Onancock School Community & Cultural Center, a 501(c)3 organization is a 13 acre oasis in the heart of Onancock VA. The Onancock School property has been educating children on the Eastern Shore for over 150 years. The present building, now 96 years old, is continually being improved as we work with the town and other partners toward transformation to a vital community & cultural center to benefit all residents and visitors to the Eastern Shore.

The historic school building is home to artisans and craftspeople, many working studios are open on weekends. The Waterman's Heritage Museum of the Eastern Shore is also a must-see for a fun informational and educational walk through our rich maritime history. Outdoors, open spaces and ball fields are available for walking, frisbee, people & pet exercise and picnics. Our playground area is equipped with a handicap swing and soft rubber mulch. Ride a bike or walk the handicap-accessible path along the native plant nature trail created by the Eastern Shore Master Naturalists, be sure to stop by the observation deck along the Onancock Creek where wildlife is abundant. The website and facebook page list monthly events and happenings. <http://www.onancockschool.org/>

The building is open 9-5 Mon-Sat, individual studios are open for special events, shows and classes on an individual basis and by appointment. The office is open Mon-Thurs. 9-4. The grounds are open to the public dawn to dark
